A colouring page can be the beginning of something.

Print the whole pack or choose one page. There is no right way to use it.

1

Draw the weather

Sunshine, a thunderstorm or snow in space.

2

Add one surprising thing

A tiny frog, a floating hat or a secret door.

3

Choose only three colours

A small constraint can make a big idea easier.

4

Tell the story on the back

What happened five minutes before this picture?

5

Make it into something

A card, a sign, a story cover or fridge-door art.

6

Colour together

Take turns choosing the next colour or tiny detail.

Easy printing

A4 portrait - actual size or fit to page - ordinary paper - colour or black-and-white printer.
